As women, we learn from an early age that our moods are a problem. To succeed in life, we are told, we must have it all under control: we have to tamp down our inherent shifts in favor of a more static way of being. But our bodies are wiser than we imagine. Moods are not an annoyance to be stuffed away, they are a finely-tuned feedback system that can tell us how best to manage our lives. Our changing moods let us know when our bodies are primed to tackle different challenges and when we should be alert to developing problems. They help us select the right tool for each of our many jobs. If we deny our emotionality, we deny the breadth of our talents. With the right care of our inherently dynamic bodies, we can master our moods to avail ourselves of this great natural strength. Yet millions of American women are medicating away their emotions because our culture says that moodiness is a problem to be fixed. Over-prescribed medications can have devastating consequences for women in many areas of our lives--and even if we don't pop a pill, women everywhere are numbing their emotions with food, alcohol, and a host of addictive behaviors that deny the wisdom of our bodies and keep us from addressing the real issues that we face. Here, Dr. Julie Holland shares a better way.--From publisher description.

"The course is designed to maximise the performance of school-age learners. Two teen-inspired topics in each unit ensure the entire exam syllabus is covered, and can also act as a basis for CLIL-based extension activities and projects. Grammar sections and a Grammar Reference help students build up the accurate language structure necessary for the Use of English parts of the new Reading and Use of English paper, while B2-level vocabulary is targeted, drawing on insights from English Profile, and brought together in a Wordlist based on key vocabulary from the units. 'Exam tips', and grammar and vocabulary exercises teach students to avoid common mistakes identified in Cambridge's unique collection of real exam papers, the Cambridge Learner Corpus."--Publisher description.
