The Common Core Companion: Booster Lessons, Grades K-2 ...

Overview This book is modeled after Jim Burke's successful *Common Core Companion Series*. It is the second of two books (K-2, 3-5) in the series. The book will include a clear explanation of the mathematics within each domain, cluster, and standard and suggested grade level appropriate visual models and representations.

This book explains what the standards say, what they mean, and how to teach them. The book is organized by the Anchor Standards in the following categories: Reading Literature Informational Text Foundational Reading Skills (This is a departure from the 6-12 standards that we will have to consider in design/format) Writing Speaking and Listening Language

That version of the 9-12 standards you wish you had If you're a high school teacher, no need to despair.

Jim Burke has created a Common Core Companion for you, too. This time positioning the grades 9-10 standards alongside 11-12, it's every bit the roadmap to what each standard says, what each standard means, and how to put that standard into practice across subjects. Jim clearly lays out: - Key distinctions across grade levels - Different content-area versions of each standard - Explanations of each standard, with student prompts - Content to cover, lesson ideas, and instructional techniques - Glossary and adaptations for ELL students

It's the teaching around the standards that counts! What makes Sharon Taberski's Common Core Companion "that version of the standards you wish you had?" It's the way Sharon translates each and every standard for reading, writing, speaking and listening, language, and foundational skills into the day-to-day "what you do." It's all here: The standards for literature and informational texts put side by side for easier planning More than a dozen teaching ideas for each standard Recommendations on how to cultivate critical habits of mind A glossary of academic language for each standard An online bank of graphic organizers, reproducibles, charts, and more

When it comes to math, standards-aligned is achievement-aligned... Since The Common Core Mathematics Companions for grades K–2, 3–5 and 6–8 burst on the scene, they have been lauded as the best resources for making critical math ideas easy to teach. With this brand-new volume, high school mathematics success is at your fingertips. The authors lay out the pieces of an in-depth explanation, showing the mathematical progression of each conceptual category, how standards connect within and across domains, and what teachers and students should be doing every day to foster deep learning.

Modelled after Jim Burke's successful Common Core Companion Series, this book includes a clear explanation of the mathematics within each domain, cluster, and standard and suggested grade level appropriate visual models and representations.

"The Common Core Mathematics Companion 6-8 offers a practical guide for implementing the CCSS Math Standards. Teachers will appreciate the misconception alerts and ideas for differentiation." — Jay McTighe, Author and Consultant

When it comes to math, standards-aligned is achievement-aligned... In the short time since The Common Core Mathematics Companions, Grades K-2 and 3-5 burst on the scene, they have been lauded as the best resources for making critical math ideas easy to teach. With this brand-new 6-8 volume, middle school math success is at your fingertips. Page by page, the authors lay out the pieces to a cutting-edge curriculum, helping you to: Get the inside scoop on which standards connect, what key vocabulary means, and time-saving tables showing where to focus instruction for each grade Write curriculum for: ratios and proportional relationships, the number system, expressions and equations, functions, geometry, and statistics & probability Use the What to Teach pages to deliver

powerful standards-based lessons Learn effective techniques to create an environment where all students can experience math break-throughs Incorporate the Standards for Mathematical Practice to improve students' ability to problem solve, construct viable arguments, use tools strategically, attend to precision, and more The Common Core Mathematics Companion, Grades 6–8 has what every middle school needs to provide students with the foundation for the concepts and skills they will be expected to know in grade 9–12. Ruth Harbin Miles is a mathematics coach, with special expertise in developing teachers' content knowledge and strategies for engaging students to achieve high mathematics standards. A serving member on the Board of Directors for the National Council of Teachers of Mathematics and the National Council of Supervisors of Mathematics, Ruth is a co-author with Linda Gojak of The Common Core Mathematics Companions, K–2 and 3–5 (Corwin). Lois Williams, Ed.D., who taught mathematics in grades K–8 for 20 years, is currently an adjunct professor at Mary Baldwin College and an International Fellow with the Charles A. Dana Center, training teachers in the College and Career Readiness Standards She has been honored with a Fulbright Teacher Exchange and the Virginia Middle School Mathematics Teacher of the Year award.

Standards-based learning just got a lot easier This new version of the Common Core Companion provides a Smart Chart Index for all states implementing state-specific ELA standards. This index allows you to see in an instant which of your standards are the same as CCSS, which differ and how—and which page number to turn to for standards-based teaching ideas. Beyond that? It's the same great go-to guide for implementing the standards, translating each and every standard for reading, writing, speaking and listening, language, and foundational skills into the day-to-day “what you do.”

Modelled after Jim Burke's successful Common Core Companion Series, this book includes a clear explanation of the mathematics within each domain, cluster, and standard and suggested grade level appropriate visual models and representations.

"To reach their potential, children need an engaging environment and a reason to learn. This book is aimed at helping teachers implement quality Common Core instruction around this principle." -Gretchen Owocki The quality of instruction is the most important factor in helping students meet the Common Core Standards. That's why Gretchen Owocki's Common Core Lesson Book empowers teachers with a comprehensive framework for implementation that enhances existing curriculum and extends it to meet Common Core goals. "Children," writes Gretchen (author of The RTI Daily Planning Book), "need teachers who believe in the power of meaningful reading as a context for instruction." She breaks the CCSS reading standards into manageable chunks that emphasize engaged, authentic reading and differentiated teaching. For each standard, she offers: a clear description of what it asks from students an instructional decision tree that connects assessment to planning instructional strategies that gradually release responsibility to students techniques for intensifying instruction when readers need more support. "In implementing the standards," writes Gretchen, "we want children to deeply engage with multiple forms of reading. I wrote this book to offer encouragement to stay grounded in meaningful instruction, and to offer a set of strategies that emphasize meaningful reading." Respond to the Common Core with The Common Core Lesson Book-you'll help students meet the standards, and so much more. PLCs and book-study groups! Save 15% when you buy 15 copies with the Common Core Lesson Book Book Study Bundle!
